New Source Review newspaper advertisements for construction permit applications, January 22, 2004. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: January 20, January 21, or January 22, 2004. Public notices are generally published every two weeks. The previous publication of public notices was January 8, 2004.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is <u>Dunlap Stone</u>, <u>Inc.</u> with a mailing address of <u>P.O. Box 1595</u>, <u>Dunlap, TN 37327</u>. They seek to obtain an air contaminant permit (Division identification number: <u>04-0034-01/54669</u>) for modification of an <u>Asphalt Plant</u> located on <u>Highway 30 East, Pikeville, TN 37367</u>. This existing operation consists of a batch mixer, asphalt cement storage, crushed aggregate, and associated equipment used to produce hot mix asphalt. No. 2 fuel oil is used as fuel. A baghouse is used for pollution control of particulates (TSP). The requested modifications are to increase the carbon monoxide limit, to decrease the sulfur dioxide, volatile organic compound, and nitrogen oxide limits, and to modify the record keeping requirements. There would be no physical construction. Regulated air contaminants are emitted from this source. Mr. W. Medley is the assigned Division person.

For the Bledsoe County "Bledsonian Banner"--published once on or before Thursday, January 22, 2004.

The applicant is <u>Pets Forever Crematory</u> with a mailing address of <u>511 Carroll Hollow Road</u>, <u>Normandy</u>, <u>TN 37360</u>. They seek to obtain an air contaminant permit (Division identification number: <u>16-0151-01/56883</u>) for construction of an <u>Animal Crematory</u> at <u>the same address</u>. This proposed operation would consist of a Shenandoah C6-2GLP-T animal crematory to be used for incinerating animal remains. Liquid propane would be used as fuel. This crematory would be equipped with a secondary incineration chamber for pollution control purposes. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Smith is the assigned Division person.

For the Coffee County "Tullahoma News"--published once on or before Thursday, January 22, 2004.

Air Pollution Control jan2204-web.doc 1

The applicant is <u>Tennessee Asphalt Company</u> with a mailing address of <u>P.O. Box 1111</u>, <u>Knoxville, TN 37901-1111</u>. They seek to obtain an air contaminant permit (Division identification number: <u>18-0091-01/56964</u>) for modification of an <u>Asphalt Plant</u> located on <u>Highway 127</u>, <u>Jamestown, TN 38556</u>. This existing operation consists of a batch mixer, asphalt cement storage, crushed aggregate, and associated equipment used to produce hot mix asphalt. No. 4 fuel oil and recycled (No. 5) oil are used as fuels. A baghouse is used for pollution control of particulates (TSP). The requested modifications are to increase the carbon monoxide limit, to decrease the sulfur dioxide limit, and to modify the record keeping requirements. There would be no physical construction. Regulated air contaminants are emitted from this source. Mr. W. Medley is the assigned Division person.

For the Cumberland County "Crossville Chronicle"--published once on or before Thursday, January 22, 2004.

The applicant is <u>Tennessee Asphalt Company</u> with a mailing address of <u>P.O. Box 1111</u>, <u>Knoxville, TN 37901-1111</u>. They seek to obtain an air contaminant permit (Division identification number: <u>25-0014-01/55740</u>) for modification of an <u>Asphalt Plant</u> located on <u>Highway 127</u>, <u>Jamestown, TN 38556</u>. This existing operation consists of a batch mixer, asphalt cement storage, crushed aggregate, and associated equipment used to produce hot mix asphalt. No. 5 fuel oil and recycled oil are used as fuels. A baghouse is used for pollution control of particulates (TSP). The requested modifications are to increase the carbon monoxide limit, to decrease the sulfur dioxide limit, and to modify the record keeping requirements. There would be no physical construction. Regulated air contaminants are emitted from this source. Mr. W. Medley is the assigned Division person.

For the Fentress County "Fentress Courier"--published once on or before Thursday, January 22, 2004.

The applicant is <u>American Surfaces</u>, <u>Inc.</u> with a mailing address of <u>2067 Robert Matthews Avenue</u>, <u>Sparta</u>, <u>TN 38583</u>. They seek to obtain an air contaminant permit (Division identification number: <u>93-0079-01/56867</u>) to construct a <u>Molding Operation</u> at <u>the same address</u>. This proposed operation would consist of several different molds used to make cultured marble products. Norox would be used as a catalyst to solidify resin and gelcoat materials. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. S. Kusumanchi is the assigned Division person.

For the White County "Sparta Expositor" -- published once on or before Thursday, January 22, 2004.
